TEST CASES

TEST AREA	INPUT	TEST DESCRIPTION	OUTCOME	Solution	Result
Course View - Name Text Field	No Input (nil)	Entered nothing and Tried to **save**	Saved with a nil value in data	We need user validation	AlertView Added for the User
Course View - Credit Hrs Field	No Input (nil)	Entered nothing and Tried to **save**	Error - found nil while unwrapping Optional	The conditional is failing. Using built-in string method	Used isEmpty from the string class. Added User feedback
Course View - Name Text Field	No Input (nil)	Entered nothing and Tried to **cancel**	Error - Bad Access	Undo and roll back data before exiting view	Error fixed by using rollback() of managed object context
Assignment View -	No Input (nil)	Entered Noting in the **date** property	Error - Bad Access, Complete crash on restart attempt	When alert view is called for not having a date data is still being saved as nil.	When core data is reloaded the data cell is not allowed to load a nil value.
